ACKNOWLEDGMENTS

Front Cover Photo by Mike Baker. Back Cover Photo by Kim Baker. Thanks to my Editor Ellen Haight for all the wonderful work she does. I am grateful for the people that inspired me to start talking with the animals again, and the wonderful ladies who encouraged me to go professional. I so enjoy speaking with so many different animals and helping them and their humans improve their loving relationship. Thanks to my family and friends for your continued love and support, without which I would be lost.

DISCLAIMER

The information provided in this book regarding the care and treatment of animals is intended to promote the health and overall well-being of animals. This information is NOT meant to replace traditional veterinary treatments and/or diagnosis for injury/illness. Please consult your licensed veterinary practitioner for further information, care, treatment and diagnosis of your own animals. Energy Healing is not intended to be a substitute or replacement for traditional veterinary medicine. It is a wonderful complement that you can do to help improve your animals' health.

1 FOREWORD

Kim Baker's dedication and commitment to helping others discover their innate abilities to open their minds, hearts and souls to the wisdom of animals through animal communication is made easy in this detailed work. If you apply and follow her methods, you can and will hear and communicate with the animals.

Her passion to awaken this ability within each reader is honest and true as shared by her inspiring personal stories and revealing journey leading to this point. As a reader, one can feel her commitment and desire. It is contagious, uplifting and encouraging.

I personally recommend this work as your entry to explore and satisfy whatever pathway it presents. As you open this channel you will quickly discover that the animals will counsel, advise and support you as you step into your own journey.

As a communicator myself, I am aware of students' needs

KIM BAKER

and questions. Kim has skillfully addressed many in this very detailed work.

The animals are talking and, with this passionately and carefully written work, you can and will hear them.

Joyce Leake, *Communicating with Animals* since 1994 and
Founder of Animal University

2 INTRODUCTION

Everyone has the ability to talk with animals. We're born with it. I like to use the analogy of the ability to sing. Everyone can sing, it's just some people are better than others. The same is true of animal communication. It's a muscle; the more you use it the better you become.

I first started talking with animals as a young child. It was as easy as talking with your best friend. In fact, the animals were my friends and companions. I grew up as an only child, even though I have an older half brother. We lived near a drainage ditch which brought all sorts of wildlife around our house. I loved being outdoors and communicating with the animals. They would tell me stories and we would share in laughter and joy.

My life has been filled with many wonderful animal friends, even before I was born. While my mother was pregnant with me, she and my dad drove to New Mexico to purchase a seal point colored Birman kitten. On the drive back home the kitten curled up in the middle of her chest above her

KIM BAKER

protruding belly (me) and listened to our heartbeats all the way back to Colorado. The kitten, named Mittens for his four white paws, lived to be 17 years old. He was a major part of our family and sorely missed when he crossed over. Throughout my childhood, in addition to Mittens, we had a hamster that loved bacon and eggs (and biting you), a dog named Tiki, another named Shinook, and Patches the guinea pig.

Mittens at 2 years of age.
